Events

2024 GFFA Science Slam – Apply now! | deadline 31 October

We would like to draw your attention to the **16th Global Forum for Food and Agriculture (GFFA)** which will be held in **Berlin (DEU)** from **17 to 20 January 2024** as an in-person event. Furthermore the BMEL invites **students, doctoral researchers, young scientists and postdocs** to apply to perform at the 2024 GFFA Science Slam on 19 January 2024. The slam will take place at the GFFA in the BMEL-Hall 23a during the [Grüne Woche](#). The deadline for application to the GFFA Science Slam is **31 October 2023**. Please see [here](#) for detailed information and [apply here](#).

One Health research conference Luxembourg 11 December | Registration will open soon

The Luxembourg Veterinary and Food Administration (ALVA) is excited to announce the upcoming annual conference on research in food safety with the focus on One Health. The event is supported by the European Food Safety Authority (EFSA) and will be held in-person at the Cercle Cité (Luxembourg City) on Monday, **11th December 2023 at 5 pm** followed by a reception. Registration is mandatory and will open soon.

Connect with fellow professionals, researchers, and experts!

One Health is a collaborative, interdisciplinary approach which highlights the importance of collaborations. This conference serves as a platform to foster collaborations within Luxembourg and beyond with speakers from Luxembourg and neighbouring countries.

Plant Health webinars on NoBaSURV PWN and NoBa Land Cover Retriever | 13 and 14 December

Finnish Food Authority (Finland) will organize two webinars related to the plant health. Webinars are targeted to plant health officials and pest risk assessors.

Each webinar includes an introduction and demonstration of the app., and discussion session.

- Webinar on [NoBaSURV-PWN](#) - a web app for assessing the statistical confidence of past pine wood nematode surveys on December 13, 2023, from 13:00 to 14:50 (CET).
[Join the webinar](#)
- Webinar on [NoBa Land Cover Retriever](#) – a web app for retrieving land cover data that is needed in planning pest surveys application on December 14, 2023, from 13:00 to 14:50 (CET).

EFSA Recruitment

Technical Administrative Assistant | deadline 6 November

Are you a dedicated professional with expertise in logistics and administrative support?

Do you have experience in public administration and the ability to coordinate several tasks at the same time?

Are you interested in applying your skills to support EFSA risk assessment activities providing administrative and logistic support on applications management and with the organization of meetings with external stakeholders?

If you are looking for an interesting and challenging opportunity to apply your skills in an international, scientifically driven organisation, then do not hesitate and [send your application](#).

Technical Architect | deadline: 21 November

You will be part of the Architecture team in TS unit. Our team has around 7 staff providing architecture and IT Design services to the EFSA, introducing new technologies and digitalising existing systems. We are currently working on the automation of core processes and in migrating our data management platform to a modern Data Mesh paradigm while we have migrated most of our applications to the cloud (Azure, Salesforce and Appian mainly).

In your role as technical architect, you will join a team responsible for taking our architecture to a new digital level. As well as working with your team to deliver solutions, you will interact closely with people using the systems. You will contribute to the architecture of products and systems integration, as well as to the coordination and further development of activities carried out by external providers to ensure system stability).
